

Damascus Citizens for Sustainability's
Natural Gas Exploration & Production (NGE&P) Health and Community Impacts Survey
Confidentiality Agreement

Damascus Citizens for Sustainability (DCS) will not share your personal information or survey answers without your express permission.

The Agency for Toxic Substances and Disease Registry (ATSDR) is a federal agency charged with the protection of human health. In the course of its work, ATSDR may forward your survey answers and personal information to the Environmental Protection Agency, your state environmental and health departments and the US Coast Guard's National Response Center.
